Legal Notes

LEGAL NOTES

1. Online content

Lenz Laborglas GmbH & Co. KG regularly checks and updates the information on its website. Despite the care taken, the data may no longer be accurate. We cannot therefore accept any liability or guarantee for the currency, correctness or completeness of the information provided.

Liability claims against the author relating to material or immaterial loss caused by the use or non-use of the information provided or by the use of false or incomplete information are excluded in all cases unless the author’s intent or gross negligence can be proven.

All information is subject to change and non-binding.
The author explicitly reserves the right to change, add or delete parts of pages or the entire information without notice or to suspend or terminate publication.

2. Links

In the case of direct or indirect links to external websites which are beyond the author’s sphere of responsibility, liability can solely arise in cases where the author has knowledge of the content and it would be technically possible and acceptable for him to prevent use in the event of illegal content. The author therefore explicitly states that the linked websites were free of illegal content at the time of creation of the links.
The author has no influence whatsoever over the current and future design and over the content of the linked websites. He therefore dissociates himself explicitly from all content of linked sites which has been modified since the creation of the links. This applies to all links created at his own website and to external entries in guest books, discussion forums and mailing lists established by the author.
The provider of the linked website is solely liable for illegal, false or incomplete content and particularly for loss resulting from the use or non-use of such information and not the party who merely refers via links to the published information in question.

3. Copyright and trade mark law

In all published information, the author endeavours to respect the copyright for the used graphics, audio documents, video sequences and copy, to use graphics, audio documents, video sequences and copy of his own or to resort to licence-free objects. If, contrary to expectation, the copyright for the graphics, audio documents, video sequences or copy is violated, a brief email to those responsible will suffice for the immediate removal of the content concerned.
All the trade marks mentioned at the website and possibly protected by third parties are subject without reservation to the provisions of current trade mark law and the property rights of each registered holder. From
